“To fully enjoy a great spirit’s character, it helps to know a little about the people behind the bottle. *Distilled Stories* provides just that kind of insight into the lives of the artisans distilling some of California’s most engaging craft spirits.”

—Paul Clarke, Executive Editor, *Imbibe* magazine,
and author of *The Cocktail Chronicles*

“Like a well-made cocktail, it’s refreshing to find a book that focuses on the ingenuity of some of California’s most innovative distillers. This is a bit of literary ‘garnish’ that will add a hearty measure of appreciation for any libation made with a California spirit.”

—Richard Carleton Hacker, spirits writer,
author, and Master of the Quaich

“It’s not often that a book comes along that I consider a ‘must read’ but *Distilled Stories: California Artisans Behind the Spirits* is one of them. Each chapter is the backstory of how that person got into the craft distilling business and reveals why the craft distilling industry is such a wonderful profession.”

—Bill Owens, founder and President,
American Distilling Institute

“California is always at the leading edge of something. *Distilled Stories* shows that craft spirits is the prize of our state’s portfolio. A book invaluable to drinkers and historians alike.”

—Adam Rogers, author of *Proof: The Science of Booze*
